

Technical Statement Latex free

Product identification: ipPORE™ track-etched membrane filters
ipBLACK™ track-etched membrane filters
ipCELLCULTURE™ track-etched membrane filters

The term latex refers to the natural rubber latex manufactured from a milky fluid that is primarily obtained from the rubber tree (*Hevea brasiliensis*). Some synthetic rubber materials may be referred to as “latex” but they do not contain the protein that produces latex allergy.

We hereby declare that we do not use latex in any form as a raw material for the manufacturing of the products listed above.

This information is based on our current knowledge and on the information given by our raw material suppliers.
